

INTRODUCING HR11 KETTLE & SHOWER DESCALER

C903

To coincide with the comprehensive re-branding of our Commercial Hygiene ranges, we are proud to be launching new products that have been designed to meet the demands of our commercial customers.

We are proud to introduce to you brand new HR11 Kettle & Shower Descaler, for the effective removal of scale on kettles, shower-heads, taps, chrome fittings and for general limescale removal on kitchen appliances. This new product has been extremely well received during our on site trials.

The Housekeeping Range of cleaning and maintenance products have been designed to the highest standards of commercial use. Arrow Solutions provides products that clean, sanitise and freshen all aspects of commercial housekeeping and continues to set the standard in cleaning and maintenance.

To learn more about HR11, give us a call or visit our website.
