

INTRODUCING **KR7** COFFEE MACHINE CLEANER & DESCALER

To coincide with the comprehensive re-branding of our Commercial Hygiene products, we are proud to be launching a range of new products that have been formulated in consultation with our dedicated client base.

We are incredibly proud to introduce to you brand new KR7, our Coffee Machine Cleaner. Removing limescale and coffee build up to leave you with a clean, residue free machine ready for your next brew. This new product has been extremely well received during our on site trials.

KR7 comes fully branded within our new Kitchen Range labelling format.

The Kitchen Range of cleaning and maintenance products has been designed specifically for the modern day commercial kitchen. Arrow Solutions provides products that clean, de-grease and sanitise all aspects of the commercial kitchen. Our kitchen concentrates also offer low cost, measured dosing solutions.

To learn more about KR7, give us a call or visit our website.
